

PRODUCT SPECIFICATION

Recessed paper towel dispenser, Bobrick Model B-35903.

Recessed paper towel dispenser shall be constructed entirely of type-304 stainless steel with satin finish. Paper towel dispenser door shall be drawn, 18-gauge (1.2mm), one-piece, seamless construction with 9/16" (14mm) 90° return edges; secured to cabinet with a concealed, full-length stainless steel piano-hinge. Door shall be equipped with a stainless steel cable door-swing limiter and friction catch, and shall conceal flange from view. Unit shall dispense either 300 C-fold or 400 multifold paper towels without adjustment or adapters.
