

EXTREME

TOUCH-FREE ELECTRONIC LAVATORY FAUCET

SPECIFICATIONS

Touch-free electronic faucet for deck-mounted installations. Cold or premixed water. Activated by Infrared sensor. Chrome plated body, other finishes available. Battery version includes a low battery indicator. The Extreme line has an Infrared sensor and a solenoid valve inside the product's body for added vandal resistance. Adjustable settings by remote control: Sensor range, Security time, Delay In, Delay Out and On-Off. 24 hour mandatory hygiene flush option can be provided upon request.

OPERATION

Touch-free electronic faucet operated by an infrared sensor. The faucet automatically activates when users place their hands within sensor range and stops when they remove them from the sensor range.

APPLICATION

Touch-free electronic faucet for deck-mounted installations. Installed as a regular faucet. Connect the transformer or battery to complete the installation. With its minimalist design, the faucet is perfectly balanced with rounded edges and smooth transitions. Ideal for stadiums, train and bus stations and highway rest stops.

PRODUCT AT A GLANCE

Installation	Lavatory mounted
Power Supply	• 9V external battery box • 9V transformer
Operating pressure	0.5-8.0 bar / 7.0-116.0 PSI
Water supply	Cold and premixed water
Water flow	6 LPM / 1.58 GPM - SSR PCA stream
Water Saving Options	4 LPM / 1 GPM ; 3 LPM / 0.8 GPM 1.89 LPM / 0.5 GPM ; 1.3 LPM 0.35 GPM - PCA spray
Water temperature	70°C Maximum
Security Time	90 seconds. Adjustable by remote control
