

BEHIND THE MIRROR FOAM SOAP DISPENSER

SPECIFICATIONS

Touch-free electronic foam dispenser for concealed installation behind the mirror. Activated by infrared sensor. Chrome plated spout. Includes a 1 liter soap bottle and bottle support. To be used with non-proprietary soap for maximum savings. Adjustable settings by remote control: Soap dosage, air quantity ("foamability"), soap tank refill, temporary off and reset to factory settings.

OPERATION

Touch-free electronic foam soap dispenser operated by infrared sensor. The foam dispenser automatically activates when users place their hands within sensor range, providing a measured amount of foam (adjustable by remote control). If the users remove the hand before the full amount is dispensed, the soap dispenser immediately stops the foam flow.

APPLICATION

The concealed, easy installation behind the washroom mirror offers an elegant, sleek and minimalist design, ideal for office buildings, hotels and leisure sites, airports and transportation hubs and luxurious commercial locations.
