

D28 DUAL POWER

SPECIFICATIONS

Electronic wall mounted faucet for cold or premixed water, with a self adjusting infrared sensor. Powered by Stern's external IP67 Dual power input box that allows the faucet to be used with a 9V battery or a 9V transformer. D28 Dual Power could be also powered by a 9V transformer and an integrated backup system to be used with a 9V Lithium battery, which enables the product to be used normally in case of a power failure. Chrome plated body. Sensor range is adjustable by remote control. Other sensor settings (delay in, delay out and security time) can also be adjusted by remote control.

Faucet will automatically shut off after being used for more than 90 seconds. Sensor features a low battery level indicator. Other finishes available.

OPERATION

Touch free electronic faucet .The faucet is activated automatically when the user brings his hands within the sensor range, and stops when the user removes his hands.

APPLICATION

Wall mounted faucet combining an elegant design with anti-vandal features. Helps washrooms stay cleaner and save water. Prevents cross contamination.
